Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to identify solutions for the challenges faced by passengers and drivers in the UCABS Cab Booking System. Throughout the process, you will also be able to empathize with users, helping you better understand how they experience transportation services and what improvements can make the system more efficient, safe, and convenient.
